

REACH Compliance Declaration

6 January 2016

As part of our annual review, we hereby certify that the MMIC products manufactured by activCirk fully comply with the related requirements of the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Under the structure of the REACH regulations, activCirk is a manufacturer of Articles to our EU customers. According to the ECHA's guidance for articles, the electronic components shall be considered Articles. We do not manufacture Substances or Preparations and our articles do not involve the "intentional release of substances". Accordingly, we foresee no registration, pre-registration or Authorization requirement for the products that we supply.

As REACH regulations are updated frequently, activCirk performs an annual review of the Candidate list of Substances of Very High Concern and may update this statement for any changes in the status of our products.

We certify that these statements are true and that activCirk's sole liability for incorrectly certifying a product shall be either replacement of the product or return of the purchase price of the relevant product, at our discretion.

A handwritten signature in black ink, appearing to read "Perry Macdonald", written in a cursive style.
